

V-Gard® Protective Caps and Hats

MSA V-Gard Slotted Caps and Non-Slotted Hats meet all applicable requirements for a Type I (top impact) helmet as outlined in ANSI/ISEA Z89.1-2009 (Class E), and CSA Z94.1-2005 with 1-Touch® and Fas-Trac® Suspensions (Class E).

V-Gard Caps and Hats meet the voluntary standard for low temperature [LT] and reverse donning as prescribed by ANSI/ISEA Z89.1-2009. Look for the official reverse donning logo  to determine if your hard hat may be worn backwards without voiding approvals.

- ➔ Available in slotted cap and non-slotted hat styles
- ➔ Three size options: small (6-7 $\frac{1}{8}$), standard (6 $\frac{1}{2}$ -8), large (7-8 $\frac{1}{2}$)

MSA can customize your helmets with your company logo and choice of reflective striping. For more information regarding logos and stripes, contact MSA Logo Express at **1.800.MSA.LOGO**.

WARNING

Do not mix suspension and helmet sizes. Make sure the sizes match (example: standard-size suspension with standard-size helmet). Use only MSA suspensions on an MSA helmet. Failure to comply with the above will reduce the energy-absorbing ability of the protective helmet, which can result in serious injury or death.
